Hononga Wai āwhātanga **Stormwater Connection**

Diagram for location of stormwater connection

- Use this diagram to indicate your preferred location for stormwater connection.
- You can use the left-hand property boundary or the right-hand property boundary as a point of reference.
- Write the distance of the proposed location from the boundary on the corresponding side.

Street/Road Frontage - name

Draw on this plan showing the required location of the stormwater connection point, it should be shown in metres from a boundary point. The location must be clear. Please note that if this application is associated with a subdivision you must provide the Resource Consent number.
