Apatono / Delegations

The Full Council's role is to carry out responsibilities under the Local Government Act 2002. It is the final decision-making authority within the Council and generally ratifies recommendations made by other committees. It is made up of all Councillors and the Mayor.

Powers that cannot be delegated

The powers that cannot be delegated by the Council are:

- (a) the power to make a rate
- (b) the power to make a bylaw
- (c) the power to borrow money, or purchase or dispose

of assets, other than in accordance with the long-term plan

(d) the power to adopt a long-term plan, annual plan or annual report

(e) the power to appoint a chief executive

(f) the power to adopt policies required to be adopted and consulted on under the Local Government Act 2002 in association with the long-term plan or developed for the purpose of the Local Governance Statement.

(g) the power to adopt a remuneration and employment policy

He Karere Haumaru / Health and Safety Message

In the event of an emergency, please follow the instructions of Council staff.

If there is an earthquake – drop, cover and hold where possible. Please remain where you are until further instruction is given.

He Pānga Whakararu / Conflicts of Interest

Members are reminded of the need to be vigilant to stand aside from decision making when a conflict arises between their role as an elected member and any private or other external interest they might have.

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Multi-year (3 or 2 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

[REDACTED]

What is the purpose of your group? To work alongside local Police for Safer Communities Together within the Patea ward

How is your group normally funded? Donations, grants, fundraising

PATEA HOTSPOT SURVEILLANCE CAMERAS PROJECT – STAGE 1

Section 2 – Project Details:

As part of Safer Communities Together, Patea Police have approached the Patea Community Patrol to partner with them to establish a hotspot surveillance camera network in Patea township and other identified strategic areas within the Patea Ward. They have provided a scoping document providing historical and present rationale for the project and locations, comprising a network of 14 cameras.

This network will comply with the NZ Police Crime Prevention Cameras (CCTV) in Public Places Policy 2010, the South Taranaki Community Surveillance Camera Systems Policy 2016, and the NZ Privacy Act 2020.

Previous barriers to establishing a camera network that can be overcome by this partnership are:

1. **Ownership of network** - Patea Community Patrol (PCP) is an established, local, not for profit organisation already working alongside Patea Police.
2. **Capability to apply for funding** – PCP has successfully applied to COGS for administrative funding, and Mobil NZ for fuel funding.
3. **Secure site for monitoring** – PCP has an office in the old Patea Courthouse, with a lockable safe set up for computer operation. Alternatively, it may be possible to link the network to the Patea Police Station. Remote link to the Hawera Police Station will be investigated.
4. **Secure sites for camera installation** – networking with local businesses has been fruitful, and potential vandalism will be minimised as much as possible.
5. **Technology issues** – Patea now has a fibre network and a local distribution network for WiFi. Within PCP there is technical experience to establish and maintain the camera network with assistance of other professionals.

Project start date: 30 September 2022

Project end date: 31 March 2023

Who will benefit from the project and how?

The whole community of Patea will benefit from this project. As stated in the above policies, “the objective of installing the cameras is to reduce the incidence of crime and disorder, so that the community feels safe when visiting the public areas covered by the cameras.”

Is consultation required with Maori/local iwi for your project?

Not specifically as it is a whole community initiative.

If so, how have you undertaken consultation and what was the feedback?

Consultation with the whole community has been held on numerous occasions with support in principle, but ownership of the network has previously been problematic.

Section 2 –continued

Does your project support the community and demonstrate a positive contribution to its wellbeing?

Yes No

If yes, please select the relevant sector(s) and provide a brief description.

Social Economic
 Cultural Environmental

Social - safer communities together

Economic - safety encourages trade, less vandalism

Environmental - less vandalism, more care is taken of the environs when a community feels safe working together

Section 2 – Project Details

Provide a brief project description:

To Fit out premises

Our club currently has 80 juniors who are actively learning new skills to be qualified lifeguards for our future.

Our clubrooms are an important part of the Opunake Community. We hold events and activities during the year whereby our facilities are used extensively by club members and other organisations of our community.

Some of our furniture requires replacing, including tables, chairs, trolleys and whiteboards. We are seeking funding to complete our building up grade to a safe and professional standard for years to come. We are celebrating our Centennial in February 2023 and look forward to sharing our facility with the South Taranaki community.

Project start date: September 2019

Project end date: December 2022

Who will benefit from the project and how?

Our members will be able to safely provide lifesaving services for the Coastal community & visitors.

Our clubrooms are a multi-use facility that is utilised by school groups from all over South Taranaki for day trips and beach education. Community & whānau groups (Lions Club, Classic Car Club, Church Groups) hold meetings, dinners and events.

.....
We provide economic value to the South Taranaki District by reassuring our residents & visitors that the beach is a fun & safe environment for them & their families. Along with the thousands that flock to the beach during the summer months that bring valuable tourists dollars to the region our Surf Club hosts sports carnivals that can bring over 150+ competitors along with their supporters to the area.
.....
The Social network our club provides is unique in that we attract members from age 5 to 70+ that are based throughout South Taranaki to our clubrooms. We provide opportunities for our members to socialise, educate themselves, upskill and stay fit in a safe environment.
.....
We actively promote caring for the environment around our community by organising beach clean ups for our members, ensuring our tamariki understand the importance of not polluting our natural resources & the educating the public on not littering, using bins provided etc.
.....
We have a culture of encouraging our members to give back to the community. It's at the centre of everything we do to make our community safer & a better place to live. We build culture of caring via our physical beach presence & social media to educate everyone on beach safety & taking care of the environment. Not only on the beach our lifeguards have assisted at local community events providing first aid services & every year our club is involved and actively supports community events such as Foodbank Drive, beach clean ups & replanting the sand dunes.

We have a church next to the Alton Coronation Hall which we own as a community. The Alton Coronation Hall Society bought it from the Anglican Church 7 years ago for \$2. And since then we have been restoring it for use as a multipurpose facility. It is a very sound and beautiful little building which needs a few more things completed to make it safe and sound for the future. It's not connected to any religion or church now, and we use it for a variety of events and purposes that require a smaller building than the Hall. We want to get electricity connected to it as we currently run an extension cord over from the Hall when we need power. We also want to carpet the entire floor area so we can move the pews back against the wall and use the area as an open space if required. And we want to get the front and side entrance foyer sanded and polyurathaned, it currently has very old linolum, but underneath are lovely rimu floorboards. We are requesting the Electricity part of this project from the STCD Community Initiatives Fund.

Project start date: 1/9/2022

Project end date: 1/12/2022

Who will benefit from the project and how?

The church is already hired out for various community purposes, and when it has power connected, we will feel more assured that it is safe for all to use. We are aiming to have it open during the Taranaki Garden festival at the end of the year with a range of local art on display, this will benefit the wider community. It also is a good space for small musical events. Yoga classes are already held at the Hall, but it will be nice to have a smaller carpeted space where these classes can be held. And social gatherings such as wine & cheese, quiz nights etc. Our community has a long history of providing a place to gather to make memories and combat rural isolation. The Alton Hotel closed in 2011, since then we have put a lot of effort into turning our Hall and now this church building into a place for local people to use to come together. There is a real need for having locations in our small towns where social and sporting events can take place.

Section 2 –continued

Does your project support the community and demonstrate a positive contribution to its wellbeing?

Yes No

If yes, please select the relevant sector(s) and provide a brief description.

Social Economic
 Cultural Environmental

The Church provides a small snug venue for our community to use for various events. Having a well maintained building like this in our community means the people who live there have a place to gather and make memories, combat isolation and keep their lives active.

Additional Note Space

The church is 70 years old next year and during those 70 years has been a central part of our district. It started out as a Church, built in 1953 and paid for by the community then handed over to the Anglican Church to run until 2016. When so many other community churches are sold and moved off to other locations, we have never considered this, as it is such a pivotal part of the village.

From when we bought it for \$2 in 2016 up until now, all the maintenance and restoration we have done on the Church has been money from the community. In 2018 we raised \$20,000 from fundraising events to rebuild an exterior wall, The community showed how much they regarded the future of the building, by helping us get this done. The Alton Hall committee hired equipment to clean, seal and paint the concrete tile roof of the Church last summer. We saved a lot of money by doing this ourselves and now the roof is in top condition and the building is warm and dry.

The community have put a lot of their own money toward this building in the last few years, but there is a bit more required from them to complete the renovation. When the carpet is done, we will take all the rimu pews outside, clean them and re-oil them. This will require help from people in the district, which I know we will receive.

Rural isolation is something that we strive to overcome, providing places, events and resources for the people who live here. Having a place to display art, have poetry or music recitals will help with the mental wellbeing of the people that live here. We also have a large number of young families in the area, the Alton Playgroup building is near the church. This Church will provide a place for smaller get togethers when needed.

And we have only been able to get one quote for each of the jobs required. It is difficult to get tradesmen to quote at the moment.

Whārangī Tono Pūtea Kōwhiriārahī Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Triennial (3 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Section 2 – Project Details

Provide a brief project description:

We are seeking funding from STDC to support two specific services The Wheelhouse provides. The first is education workshops and the second is targetted one to one support for groups to assist with their long term sustainability and strategic planning.

Education Workshops

We would like funding to delivering four education workshops such as Governance Essentials, Introduction to Finance and Effective Board Chair in the STDC areas. These will be facilitated in partnership with the STDC Community Development Team who already support the work of The Wheelhouse. The workshops are delivered by experienced presenters with local and regional community sector knowledge. The funding will go towards covering the presenters costs, advertising and promotion of each workshops.

Outside of this funding request, The Wheelhouse will continue to deliver training opportunities such as education sessions on the new Incorporated Societies Act, Public Speaking Skills etc.

One to one support

The Wheelhouse would like to offer targetted one to one support to five community groups or organisations. There has been an increase in the number of community organisations seeking specific support on issues or challenges they are facing. These pieces of work are generally intensive and require a number of sessions to get the desired outcome. Depending on the issue The Wheelhouse Manager may assist or organise for a person with the appropriate skills or knowledge to complete the work. We have a range of individuals we call upon

The Wheelhouse is a Taranaki initiative with the STDC being one of the founding members. The partners are STDC, SDC, NPDC, DIA, Sport Taranaki, Tui Ora, TPK and BAF as the fund holder.

The Wheelhouse Education Workshops

The Toi Foundation has provided a grant to The Wheelhouse, however this no longer covers the delivery of a broad range of previously subsidised or free workshops for community groups and organisations. We would like to continue to deliver The Wheelhouse workshops and one to one support in the STDC area and require funding support to do this. The workshops target different levels of ability and experience and have been developed specifically for Taranaki. We would continue to work with the STDC Community Development Team on the workshops they would recommend to be delivered in the area. The workshops are separated into three learning areas Foundation, Intermediate and Advanced and include;

Foundation workshops

- Introduction to sustainable funding
- Fraud and Financial Mis-Management in the Voluntary and Community Sector.
- Disclosure of Information and The Privacy Act
- Volunteers Rights and Responsibilities

Intermediate workshops

- Governance Essential for Trusts, Clubs, Societies & Community Organisations.
- Planning for Trusts, Clubs, Societies & Community Organisations
- An Introduction to Finance for Trusts, Clubs, Societies and Community Organisations
- An Introduction to Marketing for Trusts, Clubs, Societies and Community Organisations.
- The art of taking good minutes and the role of the secretary
- An Introduction to Good Chairing

Advanced workshops

- How to be an Effective Board Chair for a Trust, Club, Society or Community Organisation.
- Governance for Sustainable Voluntary and Community Organisations
- Project Planning for Community Organisations
- Treaty of Waitangi Training
- Project Planning
- Child Protection Training

Note: The Wheelhouse will be facilitating workshops in the community on the changes to the Incorporated Societies Act from November 2022

INCOMPLETE APPLICATIONS WILL BE RETURNED TO THE APPLICANT FOR COMPLETION *(please be aware this could delay the consideration/outcome of your application)*

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Triennial (3 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Additional Note Space

The accounts for the year to 31/03/2022 disclose funds on hand of \$27,109.

These funds have been committed to a set aside for trail work development and planting together with signage and story telling.

The events of the 2022 resulted in Otahiri stream damage that renders the track unusable in some areas. Budgeted costs for this remedial work was in excess of \$200,000 of which \$60,000 was the subject of grant and donated time and material was circa \$140,000.

This work is still under-way, accounts are yet to be reconciled and reconciliation completed. At the time of writing it appears that there may be a need to refund unspent grants. This will become clear over the next two to three months.

Additional Note Space

The trust is an ongoing project.
There will always be

- 1) Maintenance
- 2) Synang
- 3) Story Telling
- 4) Planting

The Trust will always try to
fund these activities by sourcing
grants but as you know there is
a limit to available funds.

For this reason the Trust would like
the SDC to consider a three yearly
arrangement of \$5000 per Trust. We'll
give certainty to planned works
and maintenance.

Horses Helping Humans Taranaki Application

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Triennial (3 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Total = 14

Contact details (please provide two contacts for your group)

What is the purpose of your group?

To deliver an equine assisted learning programme throughout the Taranaki region that uses horses to teach young people how they can adjust their breathing & body language to regulate their emotions in times of stress, improving their assertive communication with others.

How is your group normally funded?

Philanthropic trusts, government funding pools, donations. Paying clients who pay a subsidized rate

Section 2 – Project Details

Provide a brief project description: Each year, for 3 years
 10x South Taranaki based taiohi (aged 12 to 19 years) will
 attend 2x 3 hour sessions of our Horses Helping Humans
 Taranaki programme & also receive a post programme report.
 2x programmes (4 taiohi in each programme) will be
 delivered at our Warea venue & 1 x programme
 (2 taiohi in this programme) will be delivered at Egmont
 Showgrounds, Hāwera. We are also asking for a
 contribution towards our operational costs required to
 deliver the programme.

Project start date: 21 November 2022

Project end date: 1 June 2025

Who will benefit from the project and how?

The project's objective is to improve the mental and emotional wellbeing of vulnerable taiohi (teenagers) in the South Taranaki community. The project is targeted to "at risk" youth. In particular, taiohi experiencing anxiety, aggression, ADHD, depression, post traumatic stress disorder and low self-confidence, many of whom have started to disengage from education. To quote world renowned trauma specialist Dr Bruce Perry, in order to work with people who have experienced trauma, you need to "first regulate, before you can relate and then reason". The rhythmic, repetitive nature of the breathing exercises we do and the exercises with the hōiho (horse), regulate the taiohi brain stem. Through the horsemanship exercises, rapport is built between both our kaiako and ngā taiohi; and strengthened between the taiohi and their support person. After each exercise, we have reflective group discussions about how ngā taiohi can apply what they have learned with their hōiho to everyday situations. All of our taiohi arrive with a support person who can help them to integrate what they have learned from HHH into their everyday lives. Each taiohi is paired with an HHH Kaiako and a hōiho for the duration of the 6 hours.

Is consultation required with Māori/local Iwi for your project?

Yes No

If so, how have you undertaken consultation and what feedback was provided?

We used some of the funding that we received from Toi Foundation to offer funded places to all 8 of the iwi in Taranaki. We also offered additional funded places to 4 hapū who are located near our Warea venue and New Plymouth RDA. Of these offered places, Ngāti Ruanui, Ngāti Maru, Ngāti Mutunga, Ngā Mahanga and Ngāti Tairi accepted our offer and are booked to attend during Term 3. Ngā Rauru said that their taiohi were playing sport so were unable to attend this year but they would like to be considered next year. We also offered funded places to the Māori lead South Taranaki youth initiative Rongo Taua, who were unable to accept this year due to most of their staff being volunteers and the uncertainty of Covid, however they would like to be considered again in the future.

Section 2 – continued

Does your project support the community and demonstrate a positive contribution to its wellbeing?

Yes No

If yes, please select the relevant sector(s) and provide a brief description.

Social Economic
 Cultural Environmental

Here is a testimonial written in 2021 by Susan Hopkins, former Year 9 Dean of Hāwera High/newly appointed Junior School Pastoral Leader of Learning at Te Paepae o Aotea which demonstrates the positive social impact that our HHH programme had on Hāwera High participants.

"The Horses Helping Humans Programme has by far exceeded my expectations. We were fortunate enough to send four young female students from our school, all with a diverse range of social and learning needs, to attend the two-day workshops... What we have since witnessed in our students is some significant and dramatic changes in so many positive ways. Without a doubt this is due to the wonderful work that Laura and her team do. The girls returned from the course with a renewed sense of purpose, they have grown considerable amounts of self-confidence, they are expressing themselves calmly and in a controlled way, and they are more relaxed at school.

... Laura is an outstanding role model to the students. She connects with the students immediately and very quickly gets to know them. The reports she wrote about the girls were incredible! The depth and understanding that she was able to articulate has both impressed us and become a useful tool to enable us to assist the girls back at school... Through sharing their [the girls'] experiences, we have been able to connect on a deeper level, and we are now able to support the girls every day as needed. They are more assertive, they smile more, and they have a stronger voice/feel confident to come and discuss the big 'stuff' with us, when they need to.

..I would recommend this programme to all young people. The experience was beautiful! It was emotional! There was an incredible amount of personal learning/reflection and the transformation was truly remarkable!"

Provide a brief project description:

The Waverley Summer Christmas Jam is a free, community concert, hosted by Frankie Stevens at Dallison Park in Waverley. The concert includes a number of performers over a four hour period (from 4 pm until 8 pm), has food trucks but also allows food to be brought from home for a picnic, has spot prizes, and provides an excellent (and for over two years, almost the only) opportunity for the whole community to come together, relax, dance, see santa, and celebrate! The main costs are the stage, lighting and sound; and the performers. The organisers are all volunteers.

We are applying to assistance with the cost of the performers, which is \$4,540 + GST and with the cost of the lighting/sound, which is \$3170 + GST. The performers include Sophie Toyne, Paul Saker-Norrish, Patea Maori Cultural Theatre, Diamond Divas and Darren Wallace. Frankie Stevens is a member of the Waverley Summer Jam Committee and is performing and hosting the concert free of charge. There are no Council organised events in Waverley, and the community is happy to organise its own event. Some assistance with funding of performers would help the volunteers put on a successful event that benefits the whole community and beyond. If successful and the community enjoys the event we hope to make it an annual event.

We are applying to other funders and have been successful in securing funding from the McBroom estate for a stage and are still waiting to hear from the Mercury Waipipi/Waverley windfarm for funding. We have developed a modest sponsorship package and we hope local businesses will also support the event.

Project start date: . 26 November 22

Project end date: . 26 November 22

Who will benefit from the project and how?

Almost every community around the world has endured some level of ‘lockdown’ and isolation due to the covid pandemic. This has had significant negative effects on people’s mental and physical wellbeing and has resulted in normally cohesive communities suffering from a heightened level of disconnection. Research shows that loneliness is a key determinant of health, increasing the risk of premature death from all causes – a risk that may rival those of smoking, obesity and physical inactivity. Social inactivity is associated with a 50% increase in risk of dementia as well and a 29% increase in the risk of heart attack and a 32% increase in the risk of stroke.

Christmas is a hard time for some people, as it can heighten feelings of loss, cause stress due to a lack of money or simply increase feelings of loneliness.

The Waverley Summer Christmas Jam is an event that brings the community together for a fun, free, outdoor, community concert. This event encourages community connection, gets people out in the fresh air and inspires physical movement. The local community can walk to the park for this event and even those who drive will walk around the park and will be able to dance, chat, eat and have a great time.

Is consultation required with Māori/local Iwi for your project?

Yes No

If so, how have you undertaken consultation and what feedback was provided?

Consultation with Iwi is not required but we have already spoken to Nan Pirikahu about working together on the concert and Nan is looking at whether Iwi might open and close the event for us. Patea Maori Club are playing and the event is for everyone in our community and beyond.

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Triennial (3 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

People First NZ is a Disabled Persons Organisation that is governed by, led by and for members with learning disabilities. We have 40 groups throughout New Zealand where members meet monthly to learn about their rights and how to speak up in their lives, communities, nationally and in some cases internationally.

The expected benefits/outcomes of the operational costs are outlined below.

Enabling our members to speak out and be heard

We enable our members to speak out and be heard on things that are important in their own lives in government, in services and in the wider community.

We promote the rights of people with learning disabilities and represent people with learning disability who cannot speak for themselves.

We endeavour to ensure people with learning disabilities are heard and listened to.

Offering our members opportunities to participate in courses, programmes and projects

People First offers opportunities for members to participate in courses, programmes and projects that empower them to be self-advocates, to be safe physically, emotionally and financially.

People First promotes the work of the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) so that disabled people can take part and be fully included in all parts of New Zealand society.

People with a learning disability have the same right to self-determination as all people and are entitled to the freedom, authority, and supports to exercise control over their lives. It is very important for people with learning disability to understand and know about the United Nations Convention on the Rights of Persons with Disabilities.

Teaching members in an accessible way

We teach members in an accessible way that supports their learning about the UNCRPD and what it means for disabled people in their everyday lives. Accessible learning includes providing reasonable accommodations and accessible information, such as Easy Read.

Easy Read is an internationally recognised alternative format, presenting information in everyday language that is consistent, acronym- and jargon-free and includes images to assist meaning.

Reasonable accommodations for people with a learning disability can include a preference for mornings, as they are more rested at this time of the day and find it easier to concentrate, having shorter days and more break times.

Additionally, at People First events, we speak at a pace that allows people time to consider the information and formulate questions and how they might respond. We allow time for people to have their say and listen to them carefully.

Ensuring the voice of people with learning disability during Covid-19

The most significant role we have undertaken in the last twelve months has been to ensure that the voice of disabled members during a Covid-19 pandemic has been heard by all of government. We have translated and distributed Easy Read information to members, other disabled people, people with English as a second language and people with low literacy levels. We have participated in Ministry of Health Disabled People's Engagement Group meetings.

People First NZ is a Disabled People's Organisation (DPO), which is an organisation run by and for disabled people, and a member of the DPO Coalition. We are the only DPO in New Zealand set up to be the independent voice of people with learning disability.

One of few places where people with learning disability can develop their leadership, presentation and group work skills

People First works hard at developing strong networks across New Zealand and internationally to promote the rights of people with learning disabilities as a member of the New Zealand DPO. There are very few places, people with a learning disability can go and be in charge of their meetings, the agenda, items discussed and have meetings that are accessible with information provided in Easy Read. People First creates and supports this environment.

People First local group meetings provide opportunities for people with learning disability to develop and hone their leadership skills in an accessible environment that is run at their pace. Members get to develop presentation skills and group work skills. They have a place to celebrate their achievements, learn about their rights and share their issues.

Feedback supports us continuing measures to mitigate isolation during Covid

In the last twelve months, due to lockdowns and the covid levels, we have made fortnightly welfare calls to members, organised weekly zoom catch-ups, assisted members to form a phone tree to support each other, and established Facebook messenger chat groups so members can stay connected with each other. Mitigating isolation is paramount to support members well-being and the feedback has supported this.

We are a source of accessible information about Covid

People First NZ, as a member of the DPO Coalition, has a close working relationship with the All-of-Government COVID team and has been engaged in producing accessible information along with providing advice to government on responding to the issues faced by disabled people. For the first quarter of this year our Translation Team have translated 56 documents into Easy Read.

Making Disability Rights Real in a Pandemic: The Independent Monitoring Mechanism's report on the New Zealand Government's response to the COVID-19 emergency Aotearoa | New Zealand January 2021 says:

Disabled New Zealanders reported varied experiences of the COVID-19 emergency. For many disabled people, it exposed, and exacerbated, existing inequities. The Government has obligations under Article 21 of the Disability Convention to ensure disabled people can seek, receive, and share information and communicate in ways that are accessible to them.

People First NZ printed and disseminated 7,000 copies of "An Easy Read guide to the COVID-19 Vaccine" document to members, libraries, marae, community art centres, community centres, Citizens Advice Bureaus', and doctors.

We printed and distributed a further 1,000 of the following documents in Easy Read to members, libraries and marae:

- Getting ready for COVID-19: Making a plan if you or someone you live with gets COVID-19
- Getting ready for COVID-19: My COVID-19 plan

Information about the COVID-19 booster vaccine"

We need to do more to address the digital divide for our members

Disabled people continue to be disadvantaged by their ability to engage with digital services, according to a report published by Department of Internal Affairs in October 2020. They estimate that around 20% of all New Zealanders are digitally excluded, meaning they do not have the skills or access needed to participate in the online world.

For disabled people — one of the most vulnerable communities — this report highlights how the experience of engaging with digital services could be leaving disabled people behind, increasing the number of people who cannot easily and confidently use the internet and online services.

Covid and the development and testing of a People First digital tool has highlighted the need for people with a learning disability to be competent at using a digital device and be connected to wifi.

Also, the way we are working has moved to online learning, meetings and information sharing but many of our members have been left behind.

We will continue to advocate on behalf of disabled people and support our members to speak up on the consequences of the digital divide. This discrimination which is linked to income, unemployment or under-employment has according to Adam Stapleton, Programme Delivery Manager, Digital Public Service branch at DIA, been exacerbated by COVID-19 yet also produced an environment where new insights to improve digital inclusion can be embraced and used. This is a real opportunity to create traction and we will be there promoting our new digital tool, a webapp in Easy Read and using members on video, and the need for digital access.

Our attendance at the People First **South Taranaki** local group meetings which will be member run, **we will deliver training on our recently revised governance course and hold elections for new officers.**

Members will organise guest speakers on subjects of their choice. This will be recorded in their minutes and reported regionally to national committee.

Online courses, Speaking Up and Money Smarts Made Easy courses have been made available to the members of **South Taranaki** Group with a comprehensive workbook sent to support their learning. If members of this group did not have a digital device one was supplied so they are not excluded from the opportunity to undertake training. We measure each members confidence and level of understanding at the start of each course and then evaluate their skills and confidence at the conclusion, a report is then written up for our National Committee and our auditors. We will continue to distribute information to our members in Easy Read on Covid matters, the Ministry for Disabled People, Ministry of Health and any other relevant government or non-government information. Our Translation Team keep accurate records of all translations and we report this to our national committee along with the volume of distributions to members. This information also appears in our audit report and annual report.

In addition, we run a Disability Information and Advice Service, which benefits our members, whānau, disability support services and the wider community.

Section 6 - Declaration

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Triennial (3 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

↳ fundraising + donations in the community.

Section 2 – Project Details

Provide a brief project description:

PURCHASE PATROL VEHICLE
 Our current vehicle has high mileage (230,000 km) - requires daily upkeep and considerable maintenance incurring great expense. Formation of rust will eventually prevent the vehicle from passing a Wof certification. Community Patrols are a police led initiative working to reduce offending and victimisation by preventing crime before it actually occurs. When patrolling we act as eyes and ears of the Police - report suspicious activity - provide a visible deterrent - provide community reassurance, enabling better use of Police resources. Our patrol vehicle parked outside schools with patrolers reduce the speed of vehicles while children go to and back from school.

Project start date: 01 September 2022

Project end date: on going

Who will benefit from the project and how?

The whole community will benefit from this project - young + old
 It will enable patrolers to travel greater distances around the town without incurring car breakdowns - better protection from wet weather + the ability to carry more safety equipment in case of emergencies or accidents - high vehicle visibility is a crime and vandalism deterrent.

Is consultation required with Māori/local Iwi for your project?

Additional Note Space

As the past pupils and staff, etc are spread nationwide we want to do a big push for advertising to get the details out to people. We feel as a committee this justifies the time, effort and expense / planning of such an occasion.

As there were 10 schools in and around Waverley we want to reach and include as many people as we can. We are basing our numbers on 400 (half the 125 years celebration) as a figure to start organising the Jubilee. If the numbers are lower than 400 we will be financially short. Should the numbers be better than 400 we would hopefully be in a position for the funds returned to the Council.

Section 2 – Project Details

Provide a brief project description:

We envision a region-wide sustainability approach. For the last 9 months, Sustainable Taranaki has had a part time project coordinator, Andrea Rowe, focussed on South Taranaki. Andrea has built relationships, canvassed the community, and provided events and initiatives including film screenings, educational events and the build of the thriving community garden at St Mary’s.

Specifically, we now want to build on the foundation of this program in the following way:

Establishment of 3 more community gardens across South Taranaki – possibly in Manaia, Opunake, Kaponga, or Waverley. Our role is as a facilitator & coordinator for the co-creation of new gardens.

Provide up to 12 educational workshops and events across South Taranaki – our existing workshops from Northern Taranaki and new workshops that are specific to the needs of our community, addressing aspects of sustainability; food, housing, energy, waste, water, biodiversity, etc., enhancing practical skills, increasing knowledge, and promoting food resilience, self-sufficiency, and sustainable habits.

Bring community engagement programs- like the ‘Bring It’ Campaign, Plastic Free July, Zero Waste and Composting Education, and Reuseable Menstrual Product Education across Schools

Sustainability is becoming an increasingly mainstream consideration, where people are seeking positive messages to empower themselves and transform desires into action. Sustainable Taranaki intends to capitalise on current events & plans – 2050 Taranaki Roadmap, Just Transition Summit and other movements, and bring them to the South Taranaki space, while helping communities work together & generate positive action, resilience & self-determination.

Continued funding for the coordinator and expansion of the South Taranaki team. To develop and refine programs and support specifically for the needs of this community.

Assist educational opportunities and community collaborations. Support Community Gardens in the District.

The role is about engagement and research with stakeholders (Iwi, Schools, Councils, Fonterra etc.), supporting the community and businesses in engaging in sustainability while managing operational tasks-.

Project start date: Continuation from now – August 2022 – August 2023

Who will benefit from the project and how?

South Taranaki has fantastic people who care about the environment around them. There is a real thirst for sustainability knowledge here and an even greater thirst to get involved and to help nurture our communities and taiao. Our wider community will be the main beneficiaries of this project, as we have already seen through thriving community gardens and our education programs and events.

Our projects are run across all demographics, supporting individuals, households, schools, Iwi and businesses. in engaging further in sustainability and positive change.

There will also be benefits in reducing waste going to landfill, more community bonds and self-support (especially from the community gardens).

.....
.....

Is consultation required with Māori/local Iwi for your project?

Yes

If so, how have you undertaken consultation and what feedback was provided?

We have been in discussion with local iwi on a number of aspects of our Sustainable Taranaki mahi. We expect to have continued dialogue from here moving forward with Maori/Iwi/Hapu, especially through an application presented to the Tangata Liasion Fund that saw to engage and train a local South Taranaki Workshop Facilitator within Iwi to Deliver Sustainable Workshops for South Taranaki Iwi – While we have not been successful in our applicaiton, we will continue to seek out these opportunities. Additionally, we are in an ongoing process of embedding maoritangi within all areas of our work.

Section 2 –continued

Does your project support the community and demonstrate a positive contribution to its wellbeing?

Yes No

If yes, please select the relevant sector(s) and provide a brief description.

These initiatives all bring diverse parts of the community together to strengthen and connect them- supporting each other, getting to know neighbours better, building connections between schools and businesses, and getting inspired by what others are doing.

Economic resilience and growth are also an outcome of the work provided by us, as we seek to develop individual strengths that allow increased financial independence (grow your own, saving on power bills, etc.), as well as economic benefits for partnerships alongside education opportunities for businesses in their sustainability journey.

Our work embraces cultural perspectives and enables learning across cultures, with an education-driven focus that supports positive change and connection with the environment. We offer the tools people may need to grow in their sustainability and resilience journeys through engaging activities and workshops that involve a variety of community groups and locations.

Most importantly, offering opportunities for people to connect to their environment. Education-driven focus on giving people the tools they need to make positive change that will directly enhance the natural environment.

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Multi-year (3 or 2 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Attachment Details

You **MUST** attach the following information:

- A full set of accounts/financial statements and a copy of your most recent bank statement
- Quotes for your project costs if applicable
- A bank deposit slip or bank statement with your group's printed bank account details
- Copy of meeting minutes confirming your group's approval to apply to this fund

Please make sure you have attached the following information:

- Evidence you have applied to other funding sources and the results.

If you are unable to provide any of the above, please give an explanation below (use a separate sheet if needed).

We are not able to provide specific quotes at this time since we are not looking to purchase specific items. The funding from STDC would be used to fund our workshops and events exclusively taking place in South Taranaki.

Regarding Funding: We just submitted a funding application to NPDC for New Plymouth-based work and are working on a TOI Foundation application as well.

Start Up funding which is now coming to an end was from MBIE and TOI. These grants allowed us to employ our coordinator, create a website and deliver our initial workshops and events.

Section 2 – Project Details

Provide a brief project description:

Building Wellness Taranaki is working towards changing the culture of the construction sector in Taranaki. We want the sector to place its people at the centre, safeguard their mental well-being; and provide relevant and accessible safety nets to those who require support.

Our main strands of work are:
1. Support 2. Intervention 3. Awareness 4. Mentoring and 5. Advocacy

Since the start of 2022 and have been reaching people working in the sector and educating them about the importance of mental wellbeing, how to support others, as well as tools for actioning challenges people experience. We've had a busy year so far and now want to expand our reach into South Taranaki further. This grant will help us with costs associated with the expansion of our programme. We are aware that travel can be a barrier to access; and we are receiving growing interest and support from South Taranaki to date. This grant will help us to host events in South Taranaki about topics around mental health and to also train "buddies" as mental health first-aiders in that part of the region.

Project start date: October 2022

Project end date: July 2023

Who will benefit from the project and how?

The construction sector is a high-pressure environment with poor job security and high financial risk, combined with a culture of toxic masculinity in which people don't talk about their well-being or challenges. Statistics showed that in 2017-20 161 construction workers died from suicide. Data from the MoH indicates that approximately 60% of suicide cases have no prior contact with health services. We aim to change this culture to provide support, safety nets and safeguards for people's well-being.

This project will benefit all people in South Taranaki who work in the construction sector. They will benefit from events we host in South Taranaki and the network of buddies and health professionals we are developing for support. Further, we will raise awareness of the need to change the work culture in construction and look forward to collaborating with local construction clients, such as STDC, to increase mental health capabilities.

Is consultation required with Māori/local Iwi for your project?

Yes No

If so, how have you undertaken consultation and what feedback was provided?

.....
Consultation is not required, however, Hōne Tipene (Tainui, Ngāti Awa), Trustee of Building Wellness Taranaki Trust and Director Tuarā Civil offers cultural consultancy to offer a Te Ao Māori worldview to our kaupapa, to ensure we are reaching Māori and meeting the needs of Māori. We are also developing relationships with local iwi.

Section 2 – continued

Does your project support the community and demonstrate a positive contribution to its wellbeing?

Yes No

If yes, please select the relevant sector(s) and provide a brief description.

Social Economic

Cultural Environmental

Please see Section 2 notes document.

Briefly, our work focuses on improving the wellbeing and mental health capabilities of local communities involved in the construction sector.

It is crucial to emphasise that every suicide brings tremendous trauma to whānau, colleagues and the wider community. We aim for wider-reaching change, also supporting the wellbeing of whānau of people connected to the sector.

Our work aligns with the social as well as economic areas. The Trust is proactive in working towards improving the culture of the construction sector so that we have caring and inclusive work environments for our people and community to thrive.

Future proofing the workforce for a demanding and changing industry is necessary for employee engagement and retention as well as enabling employers to meet the increasing demands to build quality infrastructure and buildings for clients; with positive flow-on-effects impacting society-at-large.

Additional Note Space

Research shows that suicides in construction are highest in younger men aged 18-24 years old and older men aged 45+ years old, particularly for Māori men. While the Trust is still in the early days of its impact journey, we are looking forward to measuring short, medium, and long-term outcomes for our target audience as we grow and earn the trust of the sector. There is, however, ample evidence that the need we are addressing with our work is present across Taranaki as the following example demonstrates well:

In August, a 58-year-old male with nearly 40 years of construction-related experience contacted the Trust to feedback what his involvement with BWT has meant to him to date. In April, he was made aware of our new Trust and attended a number of our events, including an awareness session at his workplace, attendance at a Wellbeing Leadership workshop, and attendance at a Tools to Talk session. During the course of these few months of attending our events, he came to realise how toxic his work environment has been over the past 7 years and how unwell he was as a result.

Because he felt so supported by our Trust, and through developing a trusting relationship with our team, he called our coordinator in August to acknowledge how impactful and powerful our work has been for him. He pointed out that, particularly the messaging at the recent education session he attended triggered his own realisation that he needed to seek help from his GP. He shared with us that he saw his GP and was urgently referred to a counsellor. As a result, he is now receiving professional clinical support and reports that, if it wasn't for our connection and the Trust, he would not have taken this action because he hadn't been empowered to do so.

This example highlights how we are not only equipping our target audience with soft skills to identify when they need support, and understand where to go for support, but that they are feeling safe and empowered to take action. It has been humbling for us to receive this feedback because examples like these - where an older male construction worker feels compelled by our work to talk to us and (crucially!) built confidence to action his own wellbeing - are extremely encouraging. This example demonstrates that we are on the right track in addressing the need we identified, as well as normalising life's ups and downs and emphasising the importance of breaking down barriers to help-seeking. Lifting up the mana of our people in the construction sector to feel empowered to seek help grounds us in our purpose and drives us forward to continue to create impact in this space. Whilst this is only one first example, it shows our ongoing local presence around Taranaki is critical to creating change. Afterall, this man fed back to us, "Andy and Christina [from Building Wellness Taranaki Trust] will save lives!!!"

Continued. Section 2 notes.

Members of the construction sector initiated our programme because they recognised how poor the wellbeing of their workforce had become. 6.9% of suicides in NZ were by construction workers - the highest rate of all sectors.

The construction sector is a high-pressure environment with a “boom/bust” cycle, poor job security, and high financial risk. It is often accompanied by a culture of toxic masculinity and environments uncondusive to wellbeing. As a result, people don't talk about their wellbeing or the challenges they face.

Statistics showed that between 2017-20 161 construction workers died from suicide. Workplace pressure was listed as a factor in 32% of cases. It was found that business owners and self-employed are twice as likely to be impacted by workplace pressures. Also, Māori are a higher at-risk group, and we are developing relationships with cultural advisors and iwi to ensure we meet the needs of this community. Moreover, construction being a male-dominated industry significantly increases the risk for this population, given men often top mental health statistics nationally and globally. In fact, 99% of construction-related suicides are by our men. It is crucial to emphasise that every suicide brings tremendous trauma to whānau, colleagues and the wider community. We aim for wider-reaching change, also supporting the wellbeing of many whānau of people connected to the sector.

More broadly, this is a societal issue, and we all have a role to play in turning around those statistics. The Taranaki construction sector contributes \$505.1m (5.3%) to our Region's GDP and is arguably the foundation of our economy, not just because of its direct contribution but also because it enables other businesses to operate. With 1,807 new job openings in Taranaki between now and 2025, the pressure will continue to grow. Intensifying mental pressure is becoming a real risk for people leaving the construction industry altogether. This will diminish our ability to build quality houses and infrastructure we need in the future, with potential health, social, and economic flow-on-effects. However, the Trust is proactive in working towards improving the culture of the construction sector in Taranaki so that we have caring and inclusive work environments for our people and community to thrive. We encourage the sector to place its people at the centre of their mahi, safeguard their mental wellbeing and provide relevant and accessible safety nets to those who require support.

We are looking forward to developing a strong relationship with the STDC in a number of ways - including this funding application - because the STDC is a large construction sector client in the region. Therefore, we see critical opportunity for modelling a positive culture change and increased mental health capabilities in partnership with the council. Future proofing the workforce for a demanding and changing industry is necessary for employee engagement and retention as well as enabling employers to meet the increasing demands to build quality infrastructure and buildings for clients; with positive flow-on-effects impacting society-at-large.

Whārangī Tono Pūtea Kōwhiri-ā-rohe Community Initiative Fund Application Form

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Multi-year (3 or 2 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Dear Trustees

Thank you for this opportunity to apply for funding. Please find attached our application and supporting documents. We invite your trustees to partner with EVolocity and share a positive part of a brighter future for New Zealand's rangitahi and also our environment.

Our application is for \$6,000 towards the EVolocity Taranaki programme costs.

Our Mission: Develop the next generation of engineers, technology innovators and entrepreneurs to accelerate New Zealand's transition to electric vehicles and clean transportation, and a more sustainable future.

Our Vision: To provide young people with a practical learning programme which stimulates and embraces innovation, inspires them to pursue subjects and careers in STEM, and leads New Zealand towards electric vehicle uptake

EVolocity's CEO Sarah Fitzgerald says, "EVolocity is more than a STEM Programme, we are developing future generations of engineers, technicians, technology innovators and entrepreneurs. New Zealand needs a highly skilled workforce to deliver sustainable infrastructure and clean transportation. EVolocity provides practical hands-on engineering learning as well as career pathways for young New Zealanders. Together with our partners and sponsors we are investing in our young people and in our country's future."

We have some great alumni case studies from ex EVolocity participants who have gone on to apprenticeships or study or created their own businesses. We have recently renewed a relationship with ETCO- Electrical Training Company www.etco.co.nz

We will be promoting to students the option of becoming an apprentice with Etco and will work with them to record the statistics on any students who are ex EVolocity participants. Once students leave school we find we have difficulty staying in touch with them. We are going to be experimenting with ways to stay in touch. Due to the young age of students we have their school email addresses and not their personal ones. We get information from teachers on which students they know have gone on to tertiary study or trade related training.

I have attached some alumni case studies, they are not from Taranaki as it is only our 2nd year in the region.

A registered charity (CC51421)

With regards to school contact. We have a launch day at the beginning of the year as an introduction to the programme where, then a series of build days, scrutineering day and then regional finals event. This year in Taranaki we have done 4 x build days with a fifth tomorrow at Western Institute of Technology and mentors working with schools on a weekly/monthly basis.

EVolocity grows young people's interest in science, technology and engineering and to show them that there are actions they can take and decisions they can make that will have a positive impact on climate change and our environment. EVolocity is a pathway to qualifications- in particular, it is a tool to support vocational pathways in the manufacturing & technology sectors.

Some of our current aims are to promote our programme to more students who identify as:

- Maori & Pasifika
- Female
- From lower socio-economic backgrounds

Participating in the EVolocity programme can open doors for students through the contact they experience with many of our stakeholders i.e. Air New Zealand Aviation Institute, NZ Defence Force, The Electrical Training Company, Motor Industry Training Organisation, Universities and Polytechnics. It also ignites interest in young people who may not have given thought to a related career.

Following is a list of approximate percentages relating to the decile levels of schools involved nationally. Decile Level 9 & 10 is 10%, Deciles 6, 7, & 8 is 35%, Deciles 3, 4, & 5 is 40% and Deciles 1 & 2 is 15%. We will be encouraging increased engagement with rangatahi over the next few years, particularly those who have fewer opportunities to engage. We hope to encourage young Maori students to participate further in Science, Technology, Engineering and Mathematics (STEM) activities. We will also target a number of Māori focused colleges to help increase knowledge and involvement in EVolocity. 60% of schools participate in our programme as an extra- curricular activity with 40% using our programme to build projects to gain NCEA credits.

Our secondary school programme helps to engage, provide some direction forward and retain youth in school and learning. EVolocity is an exciting platform which entices students with diverse interests to conceive of and design and build an electric vehicle. Teams are typically not just made up of students interested in science/technology/engineering. We know that students who are uncertain about their future path have found some direction from their involvement or regained an interest in school. Our tertiary and trade related partners are keen to engage with our participants offering education or work placement opportunities.

electronics & computer programming. The children compete their vehicles in regional finals and then the National finals in Christchurch later in the year. EVelocity launched in Canterbury in 2014 with 16 school teams participating from 11 schools. The programme is growing strongly, attracting more and more schools and teams. We are now active in eight regions across New Zealand. Our inaugural Bay of Plenty & Manawatu/Whanganui school programmes commenced in 2019. We launched EVelocity in the Taranaki region in 2021.

In 2021, we had 700 participants registered from 101 schools with 173 teams from 8 regions; Wellington, Canterbury, Waikato, Auckland, Taranaki, Manawatu/Whanganui, Bay of Plenty/Rotorua and Nelson. In 2022 we are tracking similar. Nationally, around 26% of students taking part are of Maori or Pasifika descent. There are a growing number of girls participating, approximately 18% of our participants.

How EVelocity would celebrate the support of South Taranaki District Council

If our application is successful, we would love to celebrate with you and our community. Some of the ways we can do this is as follows:

- Acknowledgement at Taranaki Regional finals event
- Your logo and link to your website on the Sponsor's page of our website

For further information, I invite you to take a look at our website www.evolocity.co.nz. If you have any questions, please do not hesitate to contact me on the mobile number below. I look forward to hearing from you soon.

Fund Criteria

The purpose of the Community Initiatives Fund is to directly support South Taranaki community activities, initiatives, programmes, projects, and facilities that can demonstrate a positive contribution to the social, economic, environmental, and cultural well-being of the South Taranaki community.

Funding grants will be allocated at Council's discretion as either a Multi-year (3 or 2 year) or One-off (1 year) grant.

Funding is to be complementary rather than a primary funder, priority may be given to applicants that can demonstrate that they are seeking other sources of funding.

Requests for funding of less than \$6,000 per annum will not be considered.

The Council may choose to allocate less than \$6,000.00 per annum at their discretion.

Organisations requesting funding for activities, initiatives, programmes, projects and facilities that are usually funded by or already provided by Central Government or their subsidiaries are ineligible for funding under the Community Initiatives Fund.

The Council may take into consideration any current or previous funding that the applicant has received from the Council when assessing a funding application.

The applicant must disclose financial information and past contributions, this may include past applications, rates rebates or leases.

The Council reserves the right to approve or revoke perpetual Community Initiative Fund grants to an organisation at its discretion.

Note: The Council provides one round of Community Initiatives Funding per year subject to budget availability.

Additional Note Space

On the 8th August 2022 we the 'Rawhitiroa Womens Institute' wrote to our local STDC ward councillors, seeking clarification on the final stage of our project.

A copy of which is attached for your information. It outlines our questions and provides photos and sketches which outline our vision for the completion of our "Anzac Resurgence Project".

The outcome of their monthly council meeting was very favourable - and we were advised to apply for funding through the Community Initiatives Fund. It would be very advantageous to finish the project especially any excavation work before the opening of the Rawhitiroa Pool usually late Nov-early December 2022 due to patronage and car movement at the pool.
