Advice Notes

Note: Vegetation to be planted near electricity lines (including the National Grid) should be selected and/or managed to ensure that it will not result in that vegetation breaching the Electricity (Hazards from Trees) Regulations 2003.

Note: The New Zealand Electrical Code of Practice for Electrical Safe Distances (NZECP 34:2001) contains restrictions on the location of structures and activities in relation to the telecommunication and electricity lines (including the National Grid). Compliance with the permitted activity standards of the Plan does not ensure compliance with the NZECP 34:2001.

Where works are proposed near any electrical line, individuals are advised to contact the line operator to discuss the works.
